

Dear Sir/Madam,

The import requirements for pet (dogs and cats) from the United States of America to Aruba are:

- The pet must have resided in the USA for at least 6 months immediately preceding the date of export to Aruba;
  - > Puppies must be born in the USA.
- A microchip for identification;
- A valid rabies vaccination (rabies vaccination is not applicable for puppies/kitten under 12 weeks old):
  - > The pet should have the microchip already inserted at the moment of the rabies vaccination,
  - > If this is the first rabies vaccine ever, this must be given at least 30 days before entering Aruba (For puppies/kitten between 12 and 16 weeks old: the 30 day waiting period is waived),
  - > If your pet has a 3-year rabies vaccine and it is still valid, no re-vaccination is needed.
- A valid ENDORSED USDA HEALTH CERTIFICATE issued within 14 days of arrival in Aruba:
  - > Your accredited veterinarian can assist you with the endorsement by the USDA.
- A completely filled out application form for import permit (Document: "APPLICATION FOR IMPORT PERMIT").

Please email **ONLY** the following documents to the Veterinary Services of Aruba at least two business days before the given travel date:

1. A scan in PDF format of the "**USDA ENDORSED HEALTH CERTIFICATE**"
2. A scan in PDF format of the "**APPLICATION FOR IMPORT PERMIT**"

Upon correct receipt of all required documents, the Veterinary Services of Aruba will validate and return the submitted 'application for import permit' form within two working days with an "**OFFICIAL APPROVAL**". Please print this document and present to the local Customs upon arrival on Aruba.

NOTE:

- Only PDF format: Other file types and/or extension are not accepted.
- No need to submit other documents, unless if asked for in case of missing information.
